Technical Skills

Programming Languages
- Java
- C#
- Javascript
- C
- TypeScript

Web Development
- ReactJS
- .NET
- NodeJs
- SpringBoot
- ExpressJS
- NextJs

Database
- MySQL
- MsSQL
- MongoDB

Version Controlling
- Git

UI / UX
- Figma
- Photoshop

Other - Non Technical
- Adobe InDesign

Language

English

Sinhala

PERSONAL PROFILE

As an enthusiastic and technically adept Information Technology undergraduate at the University of Moratuwa, I am eager to leverage my strong analytical abilities and teamwork skills. I am driven to acquire new competencies and explore emerging technologies. My goal is to further refine both my technical and interpersonal skills through hands-on experiences as a Software Engineering intern in a leading technology firm.

- L1S2 GPA: 3.82 | Dean's List
- L2S1 GPA: 3.95 | Dean's List

Joseph Vaz College Wennappuwa | 2006 - 2020

GCE Advanced Level - 2020
- Z-Score : 1.765
- Combined Mathematics: A
- Physics: B
- Information& Communication Technology: B

PROJECTS

Clipess - Employee Management System
Level 02 Software Development Project   2023 August - 2024 June

- Clipess is a startup IT company in Sri Lanka. As a group, we are responsible for implementing an Employee Management System, which consists of five modules: Attendance Module, Leave Module, Inventory Module, Workplan Module, and Admin Module.
- I have contributed to the project by implementing all the features of the Attendance Module.

- Tech Stack | **ReactJs (TypeScript), .NET, MsSQL**

Automated Washroom System
Level 01 HardWare Project
2022 August - 2023 June

- As a group, We created an automated system to keep restrooms clean and well-maintained. It includes features like automatic air fresheners, smoke detectors, and real-time toilet paper monitoring. The system also maintains a constant water temperature in bathtubs. Overall, it reduces the workload for cleaning staff and improves the user experience.
- Tech Stack | **Arduino IDE**

LEO Portal (Project Management System) 2024 September/ In Progress

- Developing a system to manage Leo Club projects, fostering collaboration and real-time updates for improved communication and coordination among all members, benefiting both management and general members. The system enhances project transparency and efficiency throughout the Leoistic year.
- Tech Stack | **NextJs(TypeScript), NodeJS(ExpressJS), MySQL**

BookHive - Book Management System 2024 September/ In Progress

- Developing a comprehensive book management system that combines features of a library management system and an online book publishing platform, inspired by platforms like Amazon KDP, IngramSpark, and Lulu. This project focuses on enhancing the skills I gained through my second-year software project.
- Tech Stack | **ReactJs (TypeScript), .NET, MsSQL**

CERTIFICATES

- **C# for .NET Developers** - *Coursera*
- **Backend Development for .Net Full Stack** - *Coursera*
- **Spring Boot 3, Spring 6 & Hibernate for Beginners** - *Udemy (In Progress)*
- **NodeJS - The Complete Guide (MVC, REST APIs, GraphQL, Deno)** - *(Udemy) (In Progress)*
- **React - The Complete Guide 2024 (incl. Next.js, Redux)** - *Udemy (In Progress)*
- **React Basics** - *Coursera (Offered by Facebook)*
- **Figma UI UX Design Essentials** - *Udemy*

EXTRA CURRICULAR ACTIVITIES

- Contributed as member of Editorial Team in FIT FUTURE CAREERS 2024
- Member of Editorial Team in Project Mahesh Abeywickrama Debate Competition organized by UOM Leo Club
